ZX-4A <S>

Z-5A (B)

THE Z SERIES This series of audio racks contain welded heavy gauge steel tube construction, covered in virtually indestructible baked powder finish. The Z-5A (*black metal work*) is available with Black Oak (B) shelves, and the ZX-4A (*silver metal work*) is offered with Frosted Glass shelves. With resonance reducing open architecture, further elimination of resonance and vibration can be achieved by filling the base and side frames with lead shot or sand. this precision piece of technology is designed to stand the test of time.
