

# NEW VISIONMOUNT® LL22 LOW-PROFILE MOUNT

**Introducing a new low-profile mount so innovative, you won't want to hide it under a TV**

The new LL22 low-profile mount was designed to make installation a breeze. This sturdy, ultra-light mount is constructed of extruded aluminum and features an open wall plate design for easy cable management. Our exclusive ProSet™ height and leveling adjustments ensure TVs are always perfectly positioned after mounting. The innovative ClickStand™ feature holds the TV away from the wall for easy cable installation, then clicks securely back onto the wall plate. ClickFit™ system allows power conditioners and other small devices to be positioned directly behind the TV and easily clicked onto the mount, so they stay hidden yet easily accessible. And the low-profile LL22 sits nearly flush against the wall, maximizing the sleek, thin look of a flat-panel TV.

## Problem:

TV does not appear level with its surroundings.

## Solution:

Exclusive ProSet™ technology allows height and leveling adjustments after the TV is mounted.
